

Antique Oak specification sheet

DF-0202 | 8.0 mm Total-Thickness Collection

Product code	DF-0202	Collection	8.0 mm Total-Thickness Collection
Total thickness	8.0 mm	SPC core	6.5 mm
Attached backing	1.5 mm IXPE	Wear layer	22 mil
Plank dimensions	60 × 9 in	Coverage per carton	22.64 sq ft
Color family	Warm	Format	Click-lock SPC plank

CONSTRUCTION	6.5 mm SPC core + 1.5 mm attached IXPE = 8.0 mm total
--------------	---

Installation checkpoints

- Substrate: structurally sound, stable, clean, dry, smooth, and suitable for resilient flooring.
- Flatness: 3/16 in over 10 ft or 1/8 in over 6 ft; site conditions: 55–85°F.
- No acclimation required; maintain 3/8 in perimeter space and use t-molding at 40 ft.
- Plan a 5–15% cutting and culling allowance and blend planks from multiple cartons.
- Do not add underlayment, a vapor retarder, adhesive, or another layer without written project confirmation.

Care and warranty

- Remove grit with a soft broom, clean microfiber dust mop, or non-scratching hard-floor vacuum setting.
- Damp-clean lightly with a microfiber pad and cleaner labeled safe for resilient vinyl flooring.
- Avoid steam, abrasive products, harsh solvents, wax, polish, flooding, and dragging heavy loads.
- Use compatible mats and furniture protectors; manage concentrated sunlight and heat.
- Review the official Dream Floor Limited Warranty before purchase: 7 years residential or 3 years defined light commercial. Approved claims follow the affected-area material remedy in the warranty; voluntary removal, disposal, and reinstallation labor are not covered unless applicable law requires otherwise.
